

St. Mary Cemetery – Mokena

St. Mary Cemetery is located at 195th St. and Wolf Road and was consecrated in 1864. We have our original parishioners located in our cemetery. Land was purchased in 1997 to increase the cemetery by an additional 500 graves. The cemetery expansion was completed by 1998 and the first burial was in 1999. Of the 500 grave sites in this new area we have about 106 grave sites left. In the older sections of the cemetery we have some sites left but they are all single and very scattered.

A columbarium was installed in our cemetery in 2003. A columbarium is a large monument structure made of granite. The columbarium holds 96 urns and is constructed so that there are vaults for both single and double occupants. The columbarium is located near the parking lot as you first enter the cemetery.
